1. **Job Safety Analysis & PPE Hazard Assessment**: New forms to document this process for non-laboratory work spaces have been developed. Please contact btano@ucdavis.edu or rawachter@ucdavis.edu for assistance with assessing your hazards and determining your PPE requirements.

2. **Fall Protection**: 2-hour fall protection training for authorized users of fall protection equipment will be held on-campus 11/17, 12/1, 12/5 and 12/9. Please contact rawachter@ucdavis.edu to sign up.

3. **CUPA Self-Audit Checklist**: The CUPA Self Audit Checklist resides outside of the new CIS. The checklist must be completed annually, retained for at least three years and made available upon request to the CUPA Inspector. Do not send copies to EH&S.

4. **Aerial Lifts**: Pre-operation inspection and hazard assessments for aerial lifts must be documented. Inspection and hazard assessment checklists are now available on the EH&S website.

5. **Carcinogen Use Authorization (CUA) process**: The Carcinogen Use Authorization (CUA) and the Carcinogen Self-audit no longer exist. Replacement materials for these items are currently under development.

6. **Needle and Syringe Safety**: SafetyNet #62 has been updated and is available on the Safety Services website.

*Questions*: Contact EH&S at 752-1493 or “Who do I call”.
