1. Draw a map in the space provided below of the boundaries of the patient's room. Take dose rate measurements in mrem/hr that show the dose rates in adjacent areas to the patient's room that can be occupied by other patients, visitors or Health System personnel.

Dose Rate next floor up: _______ mR/hr

Dose Rate next floor down: _______ mR/hr

Uncontrolled area compliance checklist (Y/N):
1. _____ < 2 mR/hr.
2. _____ < 100 mR per year.
3. _____ Adjacent rooms surveyed when the patient is treated with more than 200 mCi I-131.
